

Francis Parwez

Data Analyst

Karachi, Pakistan | ✉ francisparwez@gmail.com | ☎ +923243237197 | [in linkedin.com/in/francisparwez/](https://www.linkedin.com/in/francisparwez/) | github.com/francisparwez

SUMMARY

Data Science graduate with a background in Computer Science and hands-on experience in **SQL, ETL, data cleaning, data validation, and data analysis**. Proficient in **SQL Server, PostgreSQL, MySQL, Python, Pandas, Power Query, and Power BI**, with experience working with structured datasets, data transformation, and reporting. Strong problem-solving skills with a practical understanding of data pipelines and a focus on accuracy, reliability, and timely delivery.

EXPERIENCE

Divine Virtuality | MERN Stack Developer

Karachi, Pakistan | Oct 2020 - Nov 2021

- Developed and maintained responsive web applications using **React, Node.js, Express.js**, and **MongoDB**, following **Git**-based version control and collaborative development workflows.
- Built and integrated **RESTful APIs** using **Node.js** and **Express.js** to enable efficient communication between front-end and back-end services.
- Collaborated with international clients from the United States, India, and Lebanon to deliver software solutions within project deadlines.
- Implemented and optimised reusable React components, resolved application bugs, and improved application performance and maintainability.

EDUCATION

University of Hertfordshire

Hatfield, Hertfordshire, UK | Jan 2022 – Feb 2024

Master of Science in Data Science with Advanced Research

Iqra University

Karachi, Pakistan | Jan 2017 – Dec 2020

Bachelor of Science in Computer Science

EXTRACURRICULAR & ACADEMIC ACTIVITIES

BCG X Data Science Job Simulation | Forage

Aug 2026

- Completed a practical data science simulation covering **business problem framing, exploratory data analysis, data cleaning, feature engineering, machine learning model evaluation**, and **business recommendations**.
- Built and evaluated a **Random Forest classification** model to predict customer churn, using classification metrics to assess model performance and identify limitations.
- Translated analytical findings into **executive-level insights** and **recommendations** for stakeholders.

PROJECTS

Coca-Cola USA Retailer Dashboard | Microsoft Excel, Pivot Tables, Slicers

GitHub: <https://github.com/francisparwez/coca-cola-us-retailer-dashboard>

- Prepared and organized retail sales data in **Excel** to develop an interactive dashboard analysing **\$12.0M** in total sales and **24.8M** units sold across beverage brands and major retailers for 2022–2023.
- Built **Pivot Table**-based **KPI** reporting for sales, units sold, average price, and operating profit, with year-over-year sales variance analysis.
- Created a quarterly combo chart comparing sales performance with operating profit margin and implemented Region and Year slicers for interactive filtering.

HR Analytics Dashboard | Power BI, Power Query, DAX

GitHub: <https://github.com/francisparwez/hr-analytics-dashboard-power-bi>

- Cleaned, transformed, and structured HR data using **Power Query (ETL)** and prepared it for analysis and dashboard development.
- Developed an interactive dashboard analysing employee attrition, demographics, salary, and tenure, identifying the **6–10 LPA** salary band as contributing **~32% (73 of 231)** of total attrition.

Fantasy Football League Dream-Team Prediction | Python, Pandas, NumPy, Scikit-learn, LightGBM, CatBoost, Google Colab

GitHub: <https://github.com/francisparwez/fantasy-premier-league-dream-team-predictor>

- Prepared and analysed a dataset containing **10,000+ player** records for machine learning model development.
- Performed exploratory data analysis, data preprocessing, and feature engineering to prepare structured data for predictive modelling.
- Developed a machine learning model using **CatBoost** and **LightGBM** to predict optimal Fantasy Premier League teams with 83% accuracy using an 8-fold cross-validation pipeline.

SKILLS

ETL & Data Engineering: ETL | Data Pipelines | Data Cleaning | Data Preprocessing | Dataset Preparation | Data Validation | Data Organization | Data Structuring | Data Quality | Exploratory Data Analysis

Data Analytics: Power BI | Power Query | DAX | Business Intelligence | KPI Reporting | Dashboard Development | Data Visualization | Microsoft Excel (Advanced Pivot Tables, VLOOKUPS, Charts)

SQL & Databases: SQL Server (MSSQL) | PostgreSQL | MySQL | Complex Joins | Aggregations | Subqueries | CTEs | Window Functions | Views | Stored Procedures

Python & AI/ML: Python | Pandas | NumPy | Scikit-learn | Keras | LightGBM | CatBoost | Machine Learning | Feature Engineering | Model Evaluation

Data & Development Tools: CSV Data | Git | GitHub | Google Colab | Technical Documentation | Agile Development | Cross-Functional Teamwork

Full-Stack Development: JavaScript | React | React Native | Node.js | Express.js | Bootstrap | Tailwind CSS | Redux Toolkit | Django | REST APIs

CERTIFICATIONS

Aptech Certified Computer Professional - iPro | APTECH
